English School of Canada

"English School of Canada is made of people extremely dedicated to giving you the best tools to develop your English. I achieved my goals, thanks to my teachers who are in love with their jobs and are always open to helping students. Studying at ESC is much more than just learning English; I learned how to live and how to feel at home in a new culture."

General English Programs

School Features

- 2 minutes from the subway
- Modern, air-conditioned classrooms
- 2 student lounges
- Satellite TV
- Large outdoor patio
- Free student Wi-Fi
- iPad lounge

General English Programs are for all students, from beginner to high-advanced levels, and they are the best way to start studying in Canada.

- **Improve your core English-language skills**
- **Become more accurate in your speaking and writing**
- **Learn the fundamentals of English grammar**
- **Gain fluency and confidence**
- **Choose classes that interest you**
- **Choose classes that focus on the skills that you need to improve**

ESC Approach

At ESC, we focus on fluency and communication so that you become a confident user of English. All classes are interactive, with group and pair work, presentations, communicative activities, and authentic materials such as newspaper articles, music, literature, and textbooks. Teachers are professional and energetic, and classes are lively and stimulating.

En

'English Only' Policy

At ESC, we want you to succeed. We believe that the fastest way to learn English is to speak and listen to English as much as possible. Also, you can make friends more quickly at the school if you are speaking in English. For these reasons, we have an 'English only' policy at the school.

Your First Day

When you arrive at ESC, you will start your first day with a school orientation. This is followed by a placement test and oral interview to assess the level of your English knowledge and skills. You will meet with the Registrar to discuss your academic goals, and to create your personalized class schedule.

Monthly Testing and Report Cards

At the end of each month, you will complete a level test that measures your improvement, and you will receive a report card that shows you an evaluation of your skills. Then you may advance to the next level of study at the school. Most students complete one level every two months.

Core Courses

Integrated Skills

Develops students' abilities to synthesize information from reading and listening sources with their own speaking and writing.

Communicative Grammar

Follows a communicative approach to help students learn the rules and functions of grammar. Students also bridge the gap between understanding English grammar theory and applying grammar correctly in speaking and writing.

Communication

Is a theme-based class designed to teach students the characteristics of native-speaker communication, enabling them to communicate in a fluent and natural way. The class also uses a project-based learning structure designed to encourage students to work together in order to accomplish concrete goals in English.

Conversation

Is a skills-based class that teaches students functional vocabulary, structures, and expressions that will enable them to converse clearly in a variety of everyday situations. Students also practice body language, tone of voice, and using the correct register in a given situation.

Electives

Introduction to Writing (Levels 4-5)

In this class, students learn the fundamentals of writing. By familiarizing students with parts of speech, sentence structure, and context, this class provides students with a solid foundation in understanding how writing is different from and more demanding than other forms of fluency, and it prepares them for success in intermediate and even advanced writing classes.

Pronunciation (Levels 5-7)

This class is designed for students who wish to sound just like native English speakers. By focusing on minimal pairs and reduced forms, students learn to identify English sounds and produce them. The course also focuses on word stress as well as sentence stress. This course allows any learner to enter a conversation and speak with clarity and have confidence in his or her ability to comprehend.

Intermediate Functional Writing (Levels 6-7)

This class allows students to produce practical and functional pieces of writing related to many everyday situations. On finishing the course, students are able to use the appropriate register, vocabulary, and grammar in coherent paragraphs and formal and informal letters and emails. Students are shown how to work independently when brainstorming, outlining, and writing, and they are taught how to identify and correct the errors in their own writing in a self-reliant manner.

Business Communication (Levels 7-9)

This class assists students planning to work for an international company. It guides students through the job-hunting process by giving them the language skills to understand job advertisements, create a professional online presence, write an outstanding resume, and excel in a job interview. Students are also taught language and communication strategies to thrive in a variety of everyday business situations.

English for Specific Purposes (ESP)

"What I like the most about the Focus on Speaking program is that we have a lot of opportunities to express our opinions and use the new words that we learnt in class. We were taught various technics for presentations which helped us improve a lot in the areas that we were weak in."

*- Ai Ishii,
Japan*

ESP programs are designed to improve students' English-language skills in specific areas of study. These programs are designed for students who have strong foundations in English, but who require a more specific scholastic focus.

Focus on Speaking

Focus on Speaking is for students who want to improve their speaking skills. In this program, students learn how to communicate verbally with fluency and confidence, focusing on strategic conversation skills. The program specializes in the following:

- **Pronunciation**
- **Accent reduction**
- **Conversation strategies**
- **North American communication styles**
- **Social customs**

Focus on Writing

The Focus on Writing program is an intensive 12-week program that consists of 3 classes daily. The first class concerns the understanding and effective use of vocabulary (which includes collocations, idioms, register, discourse, and formality). The second class concentrates on the structure, mechanics, style, and tone of sentences. The third class illuminates how to write various academic, business, professional, and functional compositions.

English for Health Care

English for Health Care is a program with a special focus on health-related language skills and vocabulary. This program helps students develop the English skills necessary for studying or working in an English-speaking healthcare environment. This program also includes speaking, listening, and reading exercises and projects on a wide range of topics—from technical skills to ethical concerns, from communication strategies to discussing issues with colleagues.

Test- Preparation Programs

"I took the iBT TOEFL Exam Preparation program at the English School of Canada for 3 months. I learned key strategies and techniques which helped me improve my TOEFL score from 64 to 84. I studied 5 days a week for 4.5 hours per day. We focused on academic listening, reading and speaking and essay writing. I highly recommend this program. "

*- Vladyslav Merenkov
Ukraine*

ESC gives students expert preparation for the iBT TOEFL and IELTS exams. Students learn test-taking strategies and tips that help them succeed on the exams; plus, they take weekly practice tests to measure their ongoing improvement.

iBT TOEFL Exam Preparation Program

The iBT TOEFL exam measures how students use and understand English in university and college situations. Our iBT TOEFL Exam Preparation program is fast-paced and demanding and covers the four skills that are measured on the exam: writing, speaking, reading, and listening. The focus of the iBT TOEFL exam is effective communication, so this program helps students improve and perfect their communication abilities.

IELTS Exam Preparation Program

Our IELTS Exam Preparation program is designed to prepare students to take the Academic IELTS exam in order to enter a higher-education institute. This program familiarizes students with the content, style, and format of the four modules of the exam (Academic Writing, Academic Reading, Speaking, and Listening) and prepares students for college and university through the study of formal writing and academic vocabulary and through helping students to formulate clear and coherent opinions during class discussion and debate.

English for Academic Purposes (UCTP)

"I like ESC very much for many reasons. First, ESC has many activities and you can make friends from different nationalities. Second, all the teachers are great. They make us feel very comfortable and happy while we are studying. Last, the staff members and academic counselors help us with our school life. If you wish to go to school in Toronto, I recommend ESC to you."

*- Mohammed Alquwayfili
Saudi Arabia*

English for Academic Purposes (UCTP) is a unique program designed to improve students' academic English skills and prepare them for university and college in the U.S. and Canada. Since the launch of UCTP in 2006, we have been devoted to promoting high-standard academics by assisting students in developing the personal and professional skills needed to achieve excellence.

Knowing how to adapt to new cultural settings can be challenging for anyone. For students hoping to study and perhaps work abroad, learning how to integrate into a new educational or work community is the main challenge. In UCTP, we recognize this challenge and understand that students need to experience the situations and learn the skills that will prepare them for success in the real world. For this reason, we have developed a strong curriculum that reflects the needs of students heading into a variety of fields and disciplines.

In addition to such a curriculum, we have great instructors. UCTP instructors genuinely care about the success of their students and are always working to develop new strategies that enable students to perform at their best. Our instructors are committed to helping students integrate into the academic culture of U.S. and Canadian post-secondary institutions. In fact, we have helped hundreds to graduate from universities and colleges from all over the U.S. and Canada—hundreds who are now working in their fields or who have continued on to even higher education.

To sum it up, to those considering post-secondary studies in the U.S. or Canada, UCTP is committed to helping you achieve your goals. We hope to see you soon.

PATHWAY PROGRAMS

English for Academic Purposes (UCTP)	22.5 hours/week	3 classes
UCTP Prep	22.5 hours/week	3 classes
Academic Foundations	22.5 hours/week	3 classes

Academic Foundations

The Academic Foundations Course (AF) provides students with a foundation in the academic skills necessary for entry into the University College Transfer program for Pathways. Throughout the course the students will focus on grammar accuracy, strategies to expand vocabulary, reading texts, discussions, and critical thinking techniques. A general letter grade will be assigned to students at the end of the course which can grant entry into the intermediate program UCTP-prep. Academic Foundations is invaluable to all students looking for an introduction to academic skills and in particular for developing strategies for grammar accuracy in context.

UCTP Prep

UCTP Prep is designed for intermediate-level students wishing to enter UCTP, but whose level is not high enough. This course focuses on teaching students (who are ESC Level 7) the essential, foundational skills necessary to succeed in UCTP. UCTP-Prep students get a headstart on developing their proficiency in academic writing (which includes paraphrasing, summarizing, essay structure, and grammar), academic presentations, group discussions, and situations requiring precise listening comprehension.

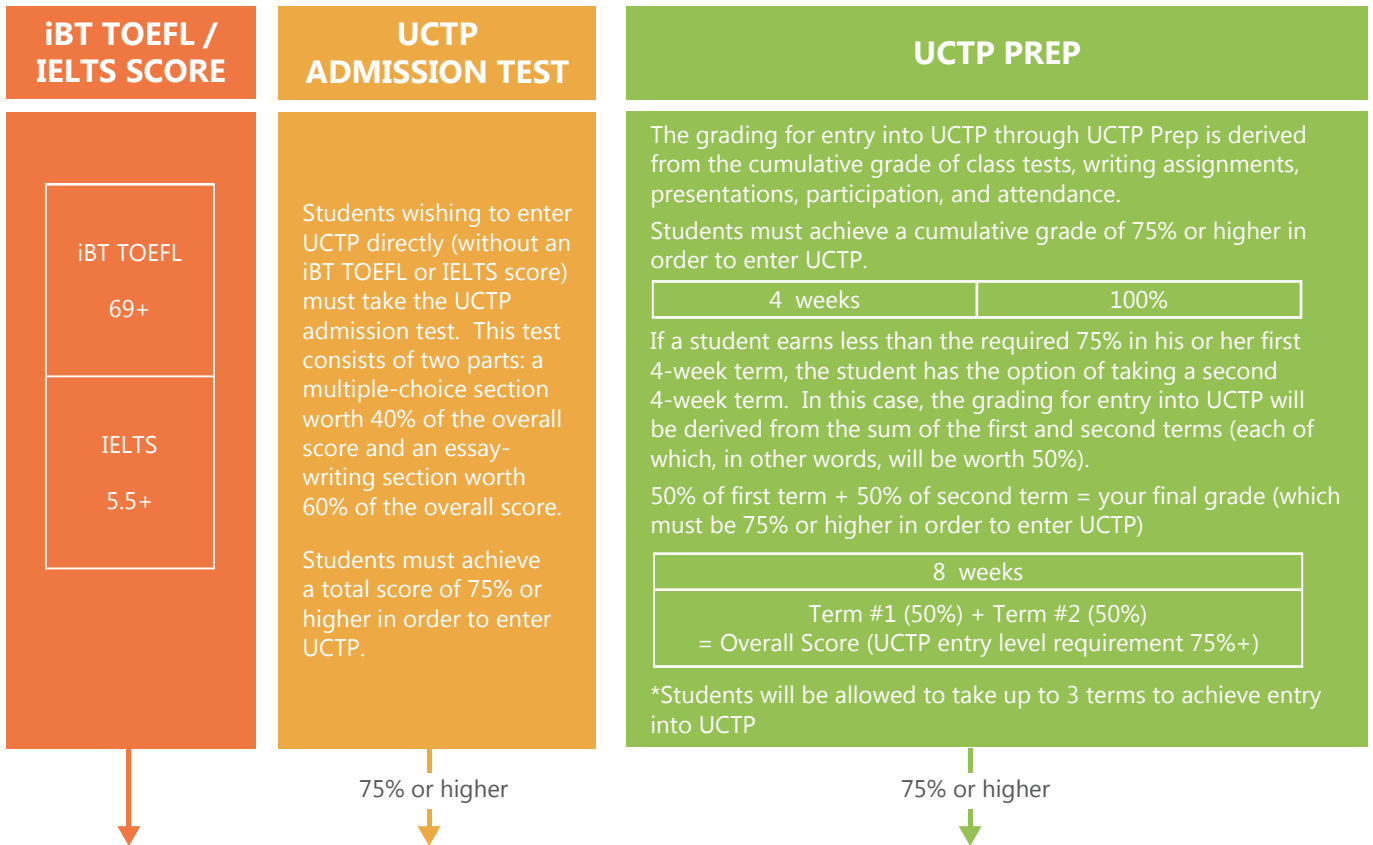

English for Academic Purposes (UCTP)

English for Academic Purposes (UCTP) is a 12-week, advanced-level program (ESC Levels 8 - 10) that is designed for students planning to attend university or college in the U.S. or Canada as well as for students seeking to learn English at a higher academic level.

UCTP has been specifically designed to help students excel in the following areas:

- Academic presentations (university and college level)
- Academic writing (university and college level)
- Research and citation
- Test-taking preparation
- Seminar participation
- Group discussion

"I am currently taking the IELTS program. It is excellent. The teachers are great and they prepare you in all aspects of the test. My goal is to go to college and I feel much more confident that I can get a high score in the IELTS examination. I have learned a lot at the English School of Canada, thanks to all my teachers, counselors and new friends from around the world."

PROGRAMS
TO SUIT YOUR NEEDS**

Alejandra Solano (Colombia)

"The University College Transfer program at ESC was such an amazing experience. I learnt a lot to improve my essay writing skills and became a confident speaking when giving presentations. UCTP helped me greatly."

Alice Beatriz Lopes (Brazil)

"I chose ESC because it is one of the best schools for preparation for college and university. I made new friends from all parts of the world whose goal was to go to a post-secondary school in North America. The expertise of the teachers at ESC made me feel much more prepared for the academic experience."

Ivanna Kalmuchyn (Ukraine)

"I'm so impressed with the University College Transfer Program at ESC. The UCTP program helped me so much in preparing for college. All my uncertainties were erased after I took this program. All the teachers are very nice and caring, and share their past experiences with us. I highly recommend the UCTP to all international students."

Edworld Kim (Bonggun Kim) (Korea)

"I was really impressed by the University College Transfer Program at ESC. The UCTP not only prepared students for college but also taught us how to live life as a responsible person in the North American society. It is one of the most valuable courses that I have ever taken in my life. Thank you to my teacher, academic counselors, and my great classmates for all the wonderful memories at the beginning of my life in Canada."

Accommodations

Homestay Program

Many students at the English School of Canada participate in our Homestay Program. Homestay gives you the chance to live with a Canadian family during your stay in Toronto so that you can practice your English language skills at home. You will also share in family activities and learn more about Canadian culture and social customs.

Our homestay families are carefully selected to provide our students with a safe, comfortable, and friendly living environment. Your homestay will be conveniently located within 30 minutes of the school. At your homestay, you will have a private single room with a bed, desk, and dresser, and fresh linen and towels each week. You will also eat together with the family, with the choice of 2 or 3 meals per day. Our Homestay Program is recommended for students during their first one to three months in Canada.

University Residence Accommodation

(May to September Only)

Living in a university residence is another option for students. Students live at the University of Toronto, the largest university in Canada, situated in the centre of downtown Toronto. Residence life gives students the opportunity to live and interact with university students, enjoy more independence, and make new friends.

Airport Pick-up Service

When you arrive in Toronto, it's nice to be met by a friendly face at the airport. If you choose our Airport Pick-up Service, we will meet you at the airport and bring you safely to your accommodations in Toronto. Look for the ESC staff member holding a sign with your name on it at the airport, and then come and say hello!

Beyond the Classroom

At the English School of Canada, we provide our students with a great selection of after-school workshops, clubs, activities, trips, and tours. You will have fun, make friends, and try new things by participating. Each month, there is a new events calendar that you can check out; all events are optional, so you can sign up for any and all of the ones that interest you.

Student Services Team

The Student Services Team is responsible for making your stay at the English School of Canada a comfortable and enjoyable experience. From after-school workshops to school picnics, our staff plan events to make sure that you keep learning and have fun even after your classes. If you need to open a bank account, plan a trip, find an apartment, or just talk, a member of our staff is always there for you.

After-School Workshops and Clubs

Try a yoga class or a shiatsu massage workshop, or maybe join the photography club or the volunteer club and do community service in Toronto.

Sports

Play volleyball on the beach, join the soccer team, go canoeing on Lake Ontario, or rollerblade through High Park. In winter, join us for skiing or snowboarding in Collingwood. Don't worry if you don't know how—we'll teach you!

Activities

Visit a museum, go to a club on College Street, or have a picnic with us on Centre Island. If professional sports are more your style, then come with us to an NBA, NHL, or MLB game, and cheer Toronto on!
